Phone: 555-330-9982

I have been locked out of my account for the past 4 days after a routine password reset attempt failed. I've tried the "forgot password" flow multiple times and never receive the reset email, even after checking spam. This is a serious issue because I use this account for managing my monthly invoices and two payments are now overdue as a result.

I already opened ticket #TCK-55210 three days ago and have not received any response. I need this escalated immediately as this is now affecting my business operations. My account ID is ACC-40218.

Please restore my access or manually reset my credentials.
